Administration Strategy Statement

INTRODUCTION

Regulation 59 of the Local Government Pension Scheme Regulations 2013 enables Pension Fund Administering Authorities to introduce an Administration Strategy (“the Strategy”) for the purpose of improving the administrative processes within their LGPS Funds. These regulations are quite specific regarding the disclosure of information and performance statistics as part of this process but provide less guidance in terms of strategy.

The Powys County Council Pension Fund (“the Fund”) has therefore developed this Strategy which recognises that both employing bodies participating in the Fund (“Employers”) and the Fund have a joint role in the delivery of an efficient service and that any overall improvements can only be achieved in partnership. This Strategy recognises the many administrative challenges faced by the Fund and Employers and contains proposals to streamline processes and improve the services to members of the LGPS, Employers and other stakeholders.

1. AIMS

The aim of this Strategy is to move towards a seamless pension service, employing appropriate technology and best practice which both significantly improves the quality of information overall and the speed with which it is processed to provide better information for and a more efficient service to members of the LGPS, Employers and other stakeholders.

This Strategy also recognises the challenges inherent in recent major changes included in the new LGPS introduced from April 2014.

2. LEGISLATIVE FRAMEWORK

The Fund and its Employers must have regard to this Strategy when carrying out their LGPS functions. This Strategy is made in accordance with Regulation 59 of the Local Government Pension Scheme Regulations 2013 [SI. 2013 No. 2356] which enables administering authorities such as Powys County Council to prepare Pension Administration Strategy Statements following consultation with relevant Employers, to facilitate best practices and efficient customer service in respect of the following:

- the establishment of levels of performance which the administering authority and its Employers are expected to achieve in carrying out their Scheme functions
- ensuring the Fund and its Employers comply with statutory requirements in respect of those functions

- improving the communication between the administering authority and the Employers of information relating to those functions.

The Strategy can also set out circumstances in which the Fund may consider giving written notice to any of its Employers under regulation 70 for additional costs on account of that Employer's unsatisfactory performance in carrying out its Scheme functions.

Levels of performance achieved must be included within the Fund's Annual Report along with other matters arising from the Strategy that are considered appropriate. All relevant regulations are set out fully in Annex 1.

3. KEY OBJECTIVES

The key objectives of this Strategy are to ensure that:

- The Fund and Employers are aware of and understand their respective roles and responsibilities under the LGPS Regulations and in the delivery of administrative functions
- Communication processes are in place to enable both the Fund and Employers to proactively and responsively engage with each other and relevant LGPS stakeholders
- Accurate records are maintained for the purpose of calculating pension entitlements and Employer liabilities, ensuring all information and data is communicated accurately, timely and in a secure manner
- The Fund and Employers have appropriate skills and that training is in place to deliver a high quality service and effectively contribute to the changing pensions agenda
- Standards are set and monitored for the delivery of specified activities in accordance with regulatory requirements and recognised best practice
- Potential risks to the Fund and Employers, in particular compliance risk, leading to financial penalties arising from poor administration, are identified, mitigated and monitored
- Effective governance arrangements are established for the monitoring and improvement of this Strategy
- Administrative services are delivered in a cost effective and efficient manner utilising appropriate technologies and best practice, in order to maintain costs at appropriate levels.

4. ACHIEVING THE OBJECTIVES

There are currently (February 2016) 18 Employers participating in the Fund with active members. These Employers differ in size, structure and capability which represents a logistical challenge to the management of information, processes and services within the Fund. It is clear that because of these differences a “one-size fits all” approach would be unlikely to deliver workable solutions; however standard ways of operating applicable to different employer groups would bring benefits. It is also clear that the number of Employers will continue to grow as will the demands for accurate information, to improve liability management at both the local and national level.

The Pensions Regulator has set national standards for the quality of pensions data held by pension schemes in both the private and public sectors. These standards require that pension data is 100% accurate, 100% of the time.

There are four key elements necessary to achieving the Fund’s administrative objectives:

- A Communications Strategy that:
 - (i) seeks to ensure pension Scheme members have accessible and timely information on all aspects of their pension benefits; and, informs and enables decisions in respect of those benefits
 - (ii) seeks to enable Scheme Employers to make effective decisions in the management of risks and liabilities as well as facilitating engagement in the wider pensions debate
- Investment in skills and knowledge development both within the Fund and as appropriate with Scheme Employers to ensure efficient administration and active engagement in the issues facing the LGPS in the future
- The effective use of technologies for accessing, storing and disseminating information between the Fund and Scheme Employers in a seamless and secure way
- Set performance standards which support the effective working of the Fund and Scheme Employers towards a higher standard of service and continuous improvement

(a) Communications

Since 2005 the Fund has been required to produce a Communications Strategy Statement. The intention of the legislation is to ensure that LGPS Funds have effective communication processes in place for all LGPS stakeholders. To this end, the Fund's Communications Strategy is already well developed.

However, the introduction of significant Scheme design changes in April 2008 and April 2014 added layers of complexity to the LGPS benefit structure. These changes have given rise to a greater demand for information and engagement, from both Scheme members and Scheme Employers.

The following priorities for communication have been identified to complement the range of activities already in place;

- To develop secure web-based facilities to enable controlled access to information and data, sending and receiving data, providing greater self-service for Scheme Employers
- To further improve the content and timeliness of web-based information to raise the awareness of Scheme members and Scheme Employers on LGPS and wider pensions issues
- To continue to organise and develop an appropriate meetings structure to support the effective engagement of Scheme Employers in ongoing and emerging issues.
- To ensure the effectiveness of distributing the pensions message across the broad spectrum of stakeholders
- To maintain the level of investment in the full range of communication materials to ensure maximum stakeholder awareness, coverage and engagement
- To use feedback to identify areas for improvement.

The Communications Strategy Statement is attached as Annex 2.

(b) Training

The Fund has always endeavoured to keep stakeholders informed of new developments providing training courses and workshops for Scheme Employers and the Fund's staff alike when new Regulations are implemented or are under consideration.

It is widely anticipated that there will continue to be periodic change to the LGPS and pensions in general over the coming years which will have wide-ranging implications for Scheme members, Scheme Employers and Fund staff administering the Scheme. With this in mind, it is important that both Scheme Employers and the Fund ensure that their staff have the appropriate skills and knowledge to support any changes, starting with a sound foundation of existing regulations and administrative processes.

Notwithstanding future change, there is an existing need to improve the quality of Scheme member data and the administrative processes by which information is received from some Scheme Employers.

The aims of the training strategy are therefore:

- to maintain a high standard of customer service for Scheme members and Scheme Employers
- to ensure that relevant staff within each Scheme Employer have appropriate knowledge and skills to effectively discharge administrative processes
- to ensure that Scheme Employers are fully aware of the risks involved in poor administration and maintenance of Scheme member pension records
- to support the implementation of new technologies within the Fund enabling greater self-service flexibilities for Scheme Employers and to help streamline administration processes
- to continually develop the technical skills and competencies of the Fund's staff
- to identify and develop a staff succession strategy for the Fund to ensure the future management and professionalism of Fund administration
- to ensure that members of both the Pensions & Investment Committee and the Pensions Board receive adequate training to properly discharge their responsibilities, in relation to the Fund.

To achieve these training aims, the Fund will:

- Organize workshops and forums for Scheme Employers to debate new issues as they emerge
- Continue to invest in specific technical training and professional development for Fund staff, trustees and Board members

This training strategy will ensure that both the Fund and Scheme Employers have a common understanding of their obligations under the LGPS, and that administrative processes are designed to maximize efficiency and to effectively manage risk.

(c) Embracing technology

The Fund launched its' pensions website in summer of 2012 (www.powyspensionfund.org). This was followed in summer 2014 by 'My Powys Pension', an online self-service facility available to all active and deferred Scheme members.

(d) Performance

The development of an Administration Strategy carries with it a legislative requirement to set performance standards and publish both the targets and achievement against those targets. The purpose of doing so is to secure continuous improvement of the administration function. Annex 3 details the performance measures and proposed targets which will be monitored and reported to the Council's Pensions & Investment Committee. It should be noted that many of these targets are set to ensure compliance with statutory benchmarks.

In addition, it is anticipated that Service Level Agreements ("SLAs") will be agreed with principal Scheme Employers during 2016/17 to set and monitor performance at the local level and will include all the targets for both the Fund and the Scheme Employer. The aggregated performance will be reported to the Council's Pensions & Investment Committee on an annual basis.

Role of the Pensions & Investment Committee

The Council's Pensions & Investment Committee is representative of all the Scheme Employers in the Powys Pension Fund (reflecting best practice) and as such has a duty to ensure that the management and administration of the Fund is carried out efficiently, cost effectively and in compliance with statutory obligations. The Committee's roles and responsibilities are set out in the Fund's Governance Compliance Statement which is available on request.

5. IMPLEMENTATION AND REVIEW

This Strategy sets out the key objectives of all the major areas of pension administration within the Fund and takes effect from 1st July 2016. Prior to implementation, Scheme Employers have been invited to comment on this Strategy.

This Strategy will be subject to a full review after an initial period of 2 years. When the Strategy is reviewed, further consultation with Scheme Employers will be considered where appropriate.
